**RE: In the matter of: Nomination for Universal Service Administrative Company
Board of Directors, CC Docket Nos. 97-21 and 96-45**

Ms. Dortch,

Pursuant to Public Notice DA 06-2325 (dated November 17, 2006), I humbly submit my request for nomination to the Universal Service Administrative Company ('USAC') Board of Directors., specifically the representative for information service providers ('ISP').

Please find enclosed a copy of my resume' as well as several letters in support of my nomination from various industry members of the information service provider group.

I have had the distinct honor of previously serving on the USAC board in the same capacity from 2000-2003.

Twenty-five years ago, at the age of nineteen, I founded my company, Spectrum Communications. We provide network communications for a vast array of clients;

school districts, libraries, Department of Homeland Security, and various federal and private organizations.

I have many years of public procurement and contract law experience. During my tenure on the USAC Board, I was honored to provide my input on several issues; State master contracts (GSA/CMAS/etc.), License and bonding requirements, and Manufactures database needs.

My knowledge of this industry and the constituents I would represent, allow me to bring useful insight to the Board.

I am deeply committed to all of the programs served by the Universal Service Funds, having previously served on both the Rural Health Care and School and Libraries committees. As well I share the FCC's commitment against waste, fraud, and abuse.

Many of my recommendations and suggestions are in practice today at USAC. I would value the opportunity to serve again at the pleasure of the FCC.

If you should have any questions or require further information, please contact me directly at (951) 529-6040.

Respectfully Submitted,

Robert Rivera
President
Spectrum Communications

Level II Reserve Officer Training, Module B
Level III Reserve Officer Training, Skid School, Arrest and Firearms
Emergency Medical Services Education
Traffic Accident Investigation
California Highway Patrol Skid School (P.C. 40600 certified)
California Commission on Peace Officer Standards and Training (POST)
Powers of Arrest
Firearms Familiarization and Safety
Non-Lethal Chemical Agent

PERSONAL STATEMENT:

I have always had a fascination with electronics, as a kid I was always taking apart things around the house (toaster, TV, radio, etc.). I built my first computer, a Heathkit, when I was 16 years old. I went to work for the Navy (Fleet Analysis Center) at 17. There I learned more about large scale computing and several computing languages.

I then went to work for local cable companies; Group W, Times/Mirror, Cablevision. I was responsible for the broadband distribution and head-end equipment deployment.

At Litacom, I was responsible for providing product development. I worked with several interesting projects based on the 8008 and 8088 chipset, and the ability to perform multitasking.

I began thinking of starting my own company, and I realized that I had cable experience and computer experience.

Then came, what I call my first round of financing. I was riding a motorized scooter with my girlfriend (now my wife), when a guy made a left turn in front of me, hitting us. His insurance settled with me for \$2,500.00, of which I took \$1,500.00 and bought a phone, business cards, and letterhead. Thus began Spectrum Communication.

We provide communications cabling, network hardware, training, and on-site consultation. I have implemented a 3 tier management structure, which allows my team to make rapid and critical decisions in a well structured and understood method.

I liken myself here at Spectrum, not as the Capitan of the ship, but as the Navigator. My specialty is my ability to select a desired goal; develop objectives and tasks to implement the goal; set benchmarks (milestones) to measure progress; and work through problems or set backs interfering with these goals (problem resolution).

I have worked with, and at Spectrum employ, many law firms (Piper Rudnick, Sheppard, Mullin, Richter and Hampton, Fried Frank) in crafting extensive legislative proposals regarding employment and contract law. I have also worked with, and at Spectrum employ, three (3) lobby firms. I am very familiar with politics at all levels, Local, State, and Federal. This knowledge is key to operating successfully in the public sector marketplace.

Dear Ms. Dortch:

My name is Tom Baldwin, and I am the General Manager of the Low Voltage Division of Walters Wholesale Electric Co. I am writing to officially nominate Mr. Robert Rivera to serve as an Information Service Provider Director on the Universal Service Administration Company Board.

Mr. Rivera has been a valued partner of ours for over 6 years, and has been instrumental in the development of Walters Wholesale Electric Co.'s Low Voltage division. His knowledge of our industry and his dedicated partnership has been invaluable, and speaks of his overall character and professionalism. It is not surprising that he has won several awards that recognize his business and entrepreneurial skills...

As the founder of Spectrum Communications, Mr. Rivera has made great strides in our industry. He has a passion and a deep understanding of the technology and information needs of public education. His dedication to serving the education market over the last 20 years culminated in Spectrum's selection by the California State Department of Education to serve in the Volunteer E-Rate Training System. Mr. Rivera would be a fine choice to represent ISP's and education as a member of the Universal Service Administration Company Board of Directors.

Sincerely,

Tom Baldwin

General Manager

Walters Wholesale Electric Co.

Dear Ms. Dortch:

I am writing to officially nominate Mr. Robert Rivera to serve as an Information Service Provider Director on the Universal Service Administration Company Board.

Mr. Rivera is CEO and Founder of Spectrum Communications Cabling Services, Inc. (6 years in a row on Inc. 500's fastest growing companies) and MeshworX, Inc. a national information service provider to K-12 schools and libraries. Mr. Rivera has received numerous honors, including Hispanic Business Magazine Entrepreneur of the Year (2000) and finalist for Ernst & Young's Entrepreneur of the Year (twice).

Mr. Rivera is very knowledgeable about our industry and has a passion and a deep understanding of the technology – information needs – of public education. His company's dedication to serving the education market over the last 20 years culminated in Spectrum's selection – in 2000 – by the California State Department of Education to serve in the VETS program (Volunteer E-Rate Training System). I can think of no other person who could better represent ISP's and education as member of the Universal Service Administration Company Board of Directors.

Sincerely,

Bart Moran
